

SCHOOL IMPROVEMENT PLAN

Louise Davy Trahan Elementary School

SCHOOL GOALS

2014-2015 School Year

PRINCIPAL GOALS

○ Professional Practice Goals

In the 2014-2015 school year, the Principal will conduct classroom observations and walkthroughs for a total of at least two hours each week of school as measured by TeachPoint data. The Principal will also be visible during each school day at morning recess, in the cafeteria, during dismissal, and in school hallways, and will seek staff and student survey feedback about visibility.

○ Student Learning Goals

Student achievement in both ELA and mathematics for subgroups of students with disabilities and low income will show an increased growth of one academic year or more as measured by the end of year 2015 StoryTown and Go Math Benchmarks data. Student Success Plans with specific, targeted interventions will be developed for identified students based on current MCAS and benchmark data.

SCHOOL IMPROVEMENT GOAL

- Establish improved and effective communication to both staff and parents to maximize knowledge and awareness of Trahan's activities, events, programs, and objectives to strengthen strong, positive connections within our community as measured by weekly staff email newsletters and the implementation of a Principal's Blog and monthly parent coffees.
