### **MSBA** Process

## Site Selection

The study began with the evaluation of six sites considered for the project. Geographic location, buildable area, natural features, disruption to student/staff during construction were some of the factors discussed.

The Ryan Elementary School site was selected for it's close proximity to the town center, opportunity for enhanced resources as part of an academic campus with the Ryan School, and available open building area.

- Existing Grades 5-6: 576 (Release time 2:30 PM)
- Staff (teachers, support, administration): 150
- Total: <u>1516</u>
- ➢Projected Drop-of and Pick-up
  - Drop-off: 409
  - Pick-up: 209
  - Buses: 16 + 4 Mini-buses

## **Traffic Level Of Service**

- LEVEL OF SERVICE (LOS) LOS "A" Delay 0-10 Seconds LOS "B" Delay 10-20 Seconds
- LOS "C" Delay 20-35 Seconds
- LOS "D" Delay 35-55 Seconds
- LOS "E" Delay 55-80 Seconds
  - LOS "F" Delay >80 Seconds

## **LOS AM/PM Peak - Existing**

## **Build LOS**

## **Recommended Mitigation**

- Continue designating Pleasant Street as a School Zone under State and local statute, and install the appropriate School Zone signs.
- Enhance pedestrian experience along Pleasant Street by considering improvements to the sidewalks and accessible ramps where needed to accommodate children walking to school and Safe Route to School;
- Provide advanced warning signs for school entering and exiting traffic.
- Reach out to parents via social media to increase safety awareness.
