

Tewksbury Public Schools Preschool Programs

2021-2022

For the 2021-2022 School Year, preschool programs have changed. Please refer to this document for the most up to date information.

For the 2021-2022 school year only, all Tewksbury Public Preschool programs are available to Tewksbury students regardless of school district residency (Heath Brook or Dewing). For one year only, families do NOT need to register for a program in their home-school. This is for preschool only and due to space capacities. As students transition to Kindergarten, families must register their child for their home location.

Half day programs will be located at the Dewing School. Full-day programs will be located at the Heath Brook School. This is due to current space availability. This model will likely change for the 2022-2023 school year.

Planning for the 2021-2022 school year will be based on a program model for a typical year. Should programmatic changes need to be made, due to restrictions resulting from the COVID 19 Pandemic, families will be notified of any changes to programming, scheduling and/or cost.

Open enrollment for all programs will begin on **April 5, 2021 at 7:00 am**. You must enroll through <https://register.communitypass.net/>

Space is limited for all programs.

THMS Preschool is a part-time public preschool which offers a fun, safe and secure learning environment. The goal of the program is to address the total development of the child through a mixture of free play and planned activities designed and created by following the Preschool Massachusetts State Frameworks.

The program is staffed with high school students who are enrolled in the high school child care classes and who are learning to teach. The high school students gain incredible hands-on experience while the preschool children benefit from the favorable low student/teacher/child ratio. High School Students are supervised by a Licensed Teacher. There is a private bathroom for preschool students in the classroom.

The preschool program has a separate entrance by the playground.

*This program teaches high school students how to work with 4/5 year-old children who are demonstrating age appropriate developmental skills. High School students assigned to the class transition every 68 minutes. As a result, multiple students will work with young children attending the preschool program. Students who attend this class must be able to manage multiple staff transitions, loud bells and multiple announcements. The class is capped at 15 preschool students.

***This program is for students who will turn 4 by August 31, 2021. Orientation for TMHS Program-September 13, 2021. Start Date for TMHS Program: September 16, 2021.**
