How to set up an account for a caregiver

The process for creating an account for a caregiver (another family member, a babysitter, or other authorized guardian) is identical to setting one up for yourself. That authorized individual must download the app and follow account setup instructions above.

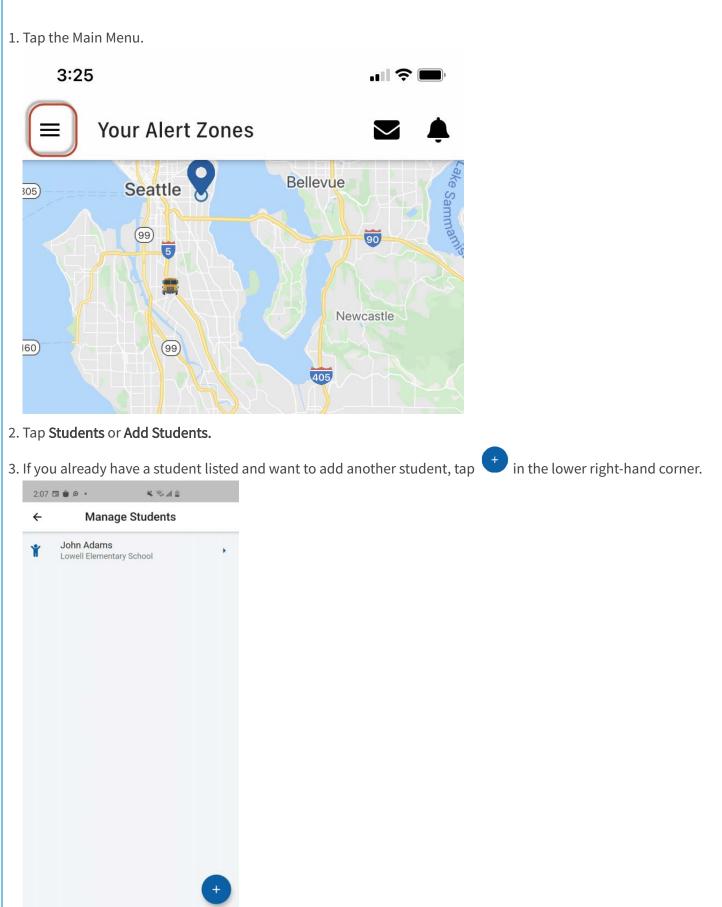

You need to provide that authorized individual with the school access code, student ID, and bus or route number.

The security of your student information is important. Your school district supplied you -- as parent or guardian -- with a unique student ID for each individual student. Contact your school administration if you do not have that student ID number.

School Notifications

During the daily scheduled alert period, bus activity is viewable on the Alert Zone map. Alert Zones are indicated with a pin and the zone radius. Vehicles are indicated by a bus graphic.

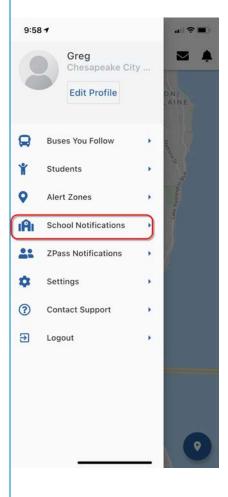

Alerts and notifications from the school are pushed to your device and are indicated by a red number on the message or alert icons. You can access those alerts and messages by tapping on them.

If the GPS unit inside the bus in unable to send data to the cell network, the application cannot provide live bus location data.
